

HEREFORD
FRANCE

16TH EUROPEAN
HEREFORD CONFERENCE

**European Hereford
Convention**
**4 - 7 October 2022 -
France**

Welcome to France !

In 2022, a new page of the Hereford breed history is about to be written in Europe, and particularly in France! **It is with honor and pride that the French Hereford Breeder Association will organize the European Conference from October 4 - 7 2022.**

France is a great country known for animal breeding, thanks to a wide range of different breeds, and a strong and innovative agriculture. Although the Hereford herd is smaller here, **its breeding qualities, its ever appreciated meat, and its positive impact on the environment are a chance for our country.**

People's awareness of the stakes of producing meat, the renewal of generations of farmers, and the crave for a new breed with higher qualities are what **motivate breeders to start with, or convert to the Hereford breed.** Hosting the European Conference in France will be a chance to meet, discuss, and share amongst European counterparts, but it will also be **a good time to communicate with other breeders to show them - and perhaps convince them - of the great assets of the Hereford.**

A word from Pascal Bastien, President of the French Hereford Association.

« We are very pleased to welcome you warmly in our country. We decided that the European Hereford Conference would take place at the same time as the Sommet de l'Élevage, Europe's major livestock shows. Our program will include visiting the Sommet, the National Hereford animal contest, and of course, technical and cultural visits. The pleasure of sharing this with you will make the event all the more joyful and successful.

I look forward to welcoming you soon. With kind regards.»
